

Connected by Passion.

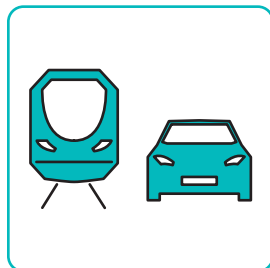

As a caravanning community we have come to appreciate the advantages of our way of travelling more than ever before. To make you feel completely at home at CARAVAN SALON Messe Düsseldorf has developed officially coordinated hygiene and infection protection standards for all visitors, exhibitors, and members of staff – keeping safe together.

HYGIENE-GUIDELINES OF MESSE DÜSSELDORF

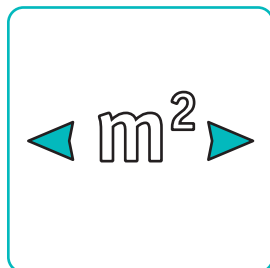

FEEL SAFE.

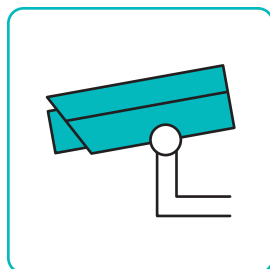

Your online ticket, please. Exhibition tickets are sold exclusively online, after registration by name and for a specific day. For you this means: no waiting at the cash desks and no cash payment. Only a limited number of eTickets is available for each day.

Safely to your destination. Your eTicket also doubles as a ticket for a return trip on VRR. For reasons of hygiene, when travelling by car, we recommend that you buy the parking vouchers online. From the parking lots, visitors can either take the Messe Düsseldorf buses or walk to the trade entrances. In the buses, the hygiene regulations apply in the same way as for public transport.

Enough room for everyone. With over 200,000 sqm of exhibition space, we offer enough room for a maximum of 20,000 day visitors. This already starts right at the entrance: speedy access, spacious entrance and waiting areas, wide aisles in the halls and routing as in road traffic allow for the observance of distancing measures.

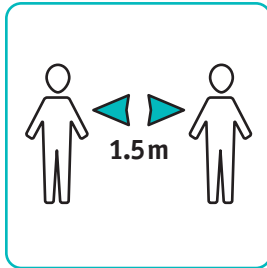

Your safety always in mind. Our service and security staff on site and video monitoring ensure that visitor crowds are avoided and general rules are observed. For your protection and for your carefree trade fair experience.

HYGIENE-GUIDELINES OF MESSE DÜSSELDORF

FEEL SAFE.

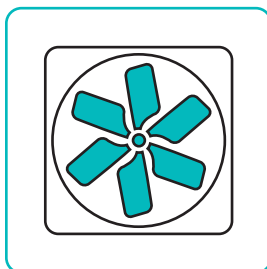

We wear face masks. We stand together as a caravanning community by taking care of each other. Therefore, please wear a face mask for the protection of all trade fair participants throughout the entire fairgrounds.

By far the best idea. Even if we ask you to maintain the proven minimum distance of 1.5 metres from other trade fair participants, at CARAVAN SALON you are very close to the trends in mobile travel. Distance markings and the route guidance systems provide orientation.

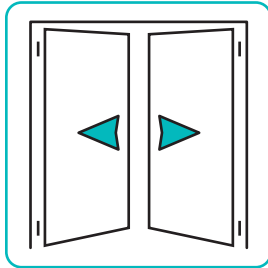

We ensure hygiene. In all areas, sufficient sanitizer dispensers for hand hygiene are available to the trade fair participants. All exposed surfaces are regularly cleaned and disinfected by us.

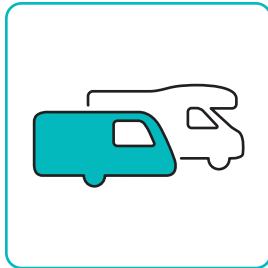

Fresh air quality in the halls. Our air-handling systems ensure a regular exchange of air in the halls. The quality of the fresh air supplied corresponds to that of the outdoor air. All systems are regularly checked by independent experts to ensure they are in perfect hygienic condition.

FEEL SAFE.

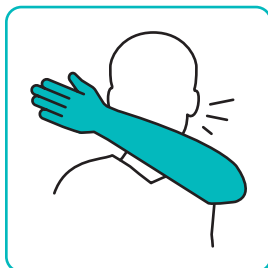

Open doors. Wherever possible, we leave all doors between the halls and to the outdoor premises wide open for you. This allows you to enter without contact.

Visiting exhibits. Doors, windows and roof hatches of recreational vehicles (RV) have to be open permanently. This way they are included in the fresh air circulation of the halls. RVs can only be visited with face masks and accompanied by persons living in the same household. Exhibitors ensure that vehicles are cleaned at regular intervals.

We are happy to assist you. If you do not feel well, our local medical service will be happy to help you with advice and support. If you should show cold symptoms in the run-up to the event, we ask you to refrain from visiting the CARAVAN SALON for the protection of the community.

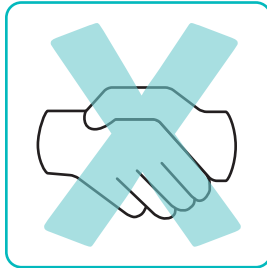

We observe the etiquette. Children and adults have learned it in the last months: please sneeze or cough in the crook of your arm. Preferably with a minimum distance of 1.5 meters and turned away from other people.

HYGIENE-GUIDELINES OF MESSE DÜSSELDORF

FEEL SAFE.

Contact without physical contact. For some time now we have known: politeness doesn't need handshakes. Therefore, please refrain from shaking hands and physical contact when visiting the trade fair.

Brochures to go. At CARAVAN SALON we will be pleased to provide you with information material around the fair. Feel free to help yourself, but please do not put the material back.

That is how the catering sector works. In the restaurants and on the exhibitors' stands, the general rules of gastronomy apply, which you already know. Please register and only remove your face mask when you have taken your seats.

Your pitch right next to the Messe. If you travel to the trade fair with your own recreational vehicle the CARAVAN CENTER at P1 will also cordially welcome you this year. Tickets are also available online for this. The general social distancing and hygiene provisions apply throughout the entire premises.
